With Button
Where suitable for the product

Printing on the skirt of the cap can be used for sales-promotion, image-building, product presentation to give the products an edge over the competition. Consumers will recognise the brand or flavour of the product more easily from the printed, deep-drawn Twist-Off® closure. The deeper skirt makes the closure easier to open and reseal. The combination of Twist-Off® technology with the closure's attractive appearance, together with the additional convenience benefits of this closure type, have convinced fillers and consumers during a handling test.

This closure incorporates the well-known benefits of Twist-Off® technology and provides more scope for graphic design on the skirt of the cap.
